

## **Documented successful therapies of 50 patients with the 3rd generation electroacupuncture system “HOLOPATHY” or “QUINT SYSTEM”**

**Summary** The author is working as a physician for 34 years specializing in chronic diseases. HOLOPATHY or QUINT SYSTEM has empirically proven to be capable of standardizing complementary diagnostics and therapies. HOLOPATHY can identify interconnected organic and psychiatric problems by means of the Chinese Five Element Theory. HOLOPATHY has proven to be a successful method in modern biophysical medicine. The author has introduced the method on numerous conventions and occasions such as : Thomas Jefferson University, Philadelphia, USA , Phenix Arizona USA, Boca Raton, Florida, USA, Brooklyn, New York, WBAY Radio New York on two occasions , Radio Alabama, USA, Aspen, Colorado, USA, Orlando Florida, USA, Las Vegas, Nevada, USA, Baden Baden, Germany, Munic, Germany, Gengenbach, Germany, Heidelberg, Germany

Holopathy is another variety of electroacupuncture. Electroacupuncture has it's first roots in France, then further developed both in Germany by Voll and in Japan by Nakatani , Europe has become world leader in the field of electroacupuncture. There was a continous evolution since 1950's and 60's starting out mainly with Dr.Reinhold Voll, a German practitioner as EAV (Electro Acupuncture Voll) and later simplified and geniously improved by Dr.Dr.Helmut Schimmel, a German dentist and physician with his VEGA Test. EAV is also the basis for the modern EDSD (Electrodermal Screening Device) by Pitterling. Pitterling adopted the option to digitalize substances and introduce same waves to the acupuncture point. For over ten years we prefer the latest and so far ultimate digitalized innovation “Holopathy” by Dr.Christian Steiner from Austria. This indeed magnificent concept works effectively both on testing the acupuncture point and treating the patient by application of digitalized substances. The uniqueness of Dr. Steiner's QUINT System is the mathematical use of the Chinese Five Elements since manipulating the energy of only one acupuncture point would change the entire energetic system of the patient according to the five elements. In other words, if you treat the acupuncture points of the kidneys you would inevitably alterate the points of the heart as well. The accuracy of the HOLOPATHY is unsurpassed and stunning.

**Both conventional and digitalized electroacupuncture are not yet rigorously scientifically understood, however, they are empirically safe since millions of patients have been using the methods since their invention for over 50 years. In my clinic we have over one thousand documented cases and have seen hundreds of improved patients using the QUINT SYSTEM or “HOLOPATHY” in all kinds of diseases. Together with the ONDAMED System , KINESIOLOGY and HOMEOPATHY, “HOLOPATHY” is the unsurpassed backbone in complementary medicine.**

**Baden Baden, a picturesque ancient spa in southern Germany has become one of the world’s best known meeting centers to ten thousands of therapists world wide seeking effective complementary medical methods to influence chronic disease.**

**This fact clearly points out the European leadership in searching and providing for successful complementary healing methods. It also reminds us of our responsibility to pay respect to generations of therapists and physicians who have been the source for relief of numerous patients.**

**At this point you may be reminded of the typhus epidemics in Leipzig, Germany in 1813. Dr.Samuel Hahnemann did not loose one of his 183 patients applying his revolutionary method of “Homeopathy” to the ill.**

**Although similar success happened in London during an infectious epidemic some time later the protagonists had to force the parliament to acknowledge the facts by fierce public hearings and debates.**
